My love, it's warmer than the sunlight  
My love, it's warmer than the breath of spring  
My love, it's sweeter than the cherry tree  
Oh baby, won't you come to me?

This feeling I can't hide  
You know I love you so, baby  
I will not let you go, no, no  
I need you more and more, darling

My love, it's stronger than a magic spell  
Oh baby, you sure look swell  
My heart, my heart, it's beating out a song for you  
I hope you feel the same way, too

This feeling I won't hide  
I love you more and more, darling  
I will not let you go, no, no  
Because I need you more and more, baby

My love, it's stronger than a magic spell  
Oh baby, you sure look swell  
My heart, my heart, it's beating out a song for you  
I hope you feel the same way, too

This feeling I won't hide  
I really need you so, darling  
I love you more and more, baby
