"Joy In the Morning"

You bring me joy in the morning
You bring me joy in the morning

The evening sun went down
All over town
I'm sitting all alone
Feeling so blue, just because

You bring me joy in the morning
You bring me joy in the morning

Every now and then
I wonder why
Why should I be so bad
Why not play it cool, (by the rules)

You bring me joy in the morning
You bring me joy in the morning

Every now and then
I wonder why
Why should I be so bad
Why not play it cool, (by the rules)

You bring me joy in the morning
You bring me joy in the morning
