This time I won't hurt you  
This time I will love you  
This time I won't hurt you  
This time I'll be true to you

Come on, and tell me you love me some more  
One thing I know, I miss you for sure  
Come on home, darling, and don't say you can't  
I'll give you everything that you really want

This time I won't hurt you  
This time I will love you  
This time I won't hurt you  
This time I'll be true to you

Don't let me cry out and beg you again  
I'll never hurt you again  
If you'd return, darling, there's one little thing I swear  
I'd really love you, darling, oh so sincere, now

This time I won't hurt you  
This time I will love you  
This time I won't hurt you  
This time I'll be true to you
