Baby, you had your chance, now I'm gone  
You've had your chance to leave me alone  
You didn't love me in any way, oh yeah  
You didn't love me, I found out today, oh yeah

Baby, I never knew you'd be so low  
You could at least let me know  
But you keep me hanging on like a fool, oh, a fool  
And I live to every rule, oh baby

I'm gonna leave you and I don't care if it grieves you  
I'm gonna leave you and I don't care if it grieves you

Baby, you had your chance, now I'm gone  
You've had your chance to leave me alone  
You didn't love me in any way, oh yeah  
You didn't love me, I found out today, oh yeah
