"Only You"

Visit "[Only You](#)" on MotoLyrics.com

Tell me why you're playing with my love (love love love)
Boy, what you're doing to me?
I give you my heart and you do nothing (nothing
nothing nothing)
Boy, what you're doing to me?

I go to sleep hoping you'd stay
Only to wake up and go in our bed
I get an irresistible feeling
That tells me you don't care

It's like you live inside of my head
I'm not really sure what I'mma do
Bout to short-circuit, boy I think I've blown a fuse
Only you, only you

Cause baby you got me, boy what you're doing?
There's something about you that's making me lose it
Only you know what you do to me
Only you know what you do

It's the way that you touch me, the way that you kiss me
I can't help what my body be needin
Only you know what you do to me
Only you know what you do

You keep tellin me everything I wanna hear (hear hear
hear)
That's what's getting to me
Build me up to watch ya disappear (pear pear pear)
And that's what's getting to me

I know my weakness is a man
What knows just what he wants
I I go hard to understand
Why won't you catch me if I fall?

It's like you live inside of my head
I'm not really sure what I'mma do
Bout to short-circuit, boy I think I've blown a fuse
Only you, only you

Cause baby you got me, boy what you're doing?
There's something about you that's making me lose it
Only you know what you do to me
Only you know what you do

It's the way that you touch me, the way that you kiss me
I can't help what my body be needin
Only you know what you do to me
Only you know what you do

You know what to do

You've got me wonderin why (why why why)
Do I feel hypnotized? (tized tized tized)
Boy I'm beginning to worry that maybe you're selfish
and probably don't care
You finally got me open unlike my emotions, why isn't it
clear? (clear clear clear)
Why isn't it clear?
That I just can't take it

Cause baby you got me, boy what you're doing?
There's something about you that's making me lose it
Only you know what you do to me
Only you know what you do

It's the way that you touch me, the way that you kiss me
I can't help what my body be needin
Only you know what you do to me
Only you know what you do
