I thought we were so in tune
But then you pushed me to the other side of the moon
We always fight, now I don't even try
Cuz you can't seem to find the reasons why

We were so perfect together
But now I'm thinking apart is better
But I still want to be with you
Baby tell me what to do

Every time I fall closer to you, you push me away
Why can't you let this come naturally?
I'm sick of fighting you every single day
Why don't you want to be with me?
I want to be with you
Because we fit together perfectly
So why do I feel like we're on opposite sides of the moon?
Oh oh oh

You are with me then gone
You are up the walls when you know that you're wrong
Everything is falling apart when it becomes perfect
But nothing can be perfect on opposite sides of the moon

Nothing is great when you push me away
Nothing is perfect at the end of the fight
Why can't we stay together for forever and a day?
Oh and I am looking forward to the twilight

So that I can see your face oh oh oh oh

Every time I fall closer to you, you push me away
Why can't you let this come naturally?
I'm sick of fighting you every single day
Why don't you want to be with me?
I want to be with you
Because we fit together perfectly
So why do I feel like we're on opposite sides of the moon?
Oh oh oh

But even when I feel so far from you I can still taste
your kiss
I can still feel it on my lips
I can still see your face in my dreams
Even when things are falling at the seems
I can still be with you even when we're at opposite sides
of the moon
Whoa e yeah whoa oh oh oh oh
But I still feel like

Every time I fall closer to you, you push me away
Why can't you let this come naturally?
I'm sick of fighting you every single day
Why don't you want to be with me?
I want to be with you
Because we fit together perfectly
So why do I feel like we're on opposite sides of the
moon?
