(2) THE BETTER ONE OF US

The better one of us has far moved on
You can can't count the days till she's back cuz they'll
go on too long
You wouldn't recognize the better one of us now
Baby take a look around
The better one of us is gone

So you say you're sorry for killing everything and me
So you say that I'm what you need
The better one of us can see every lie
So that's why this is goodbye

Don't get down on your knees
Cuz you can beg pretty please
But I won't turn around
I'm not giving you a second thought now
The better one of us has just about hit a wall
Please baby don't call
There's nothing left for you to take so just leave
And please, PLEASE, don't bore the better one of us
with apologies

So you see it wasn't hard for me
To let you go, let you leave
Cuz that was one sick apology
Trying to make me feel I was wrong no baby BABY no

So lay your cards out on the table for me
Yeah I know, just please let me see

NO NO NO NOTHING LEFT TO SAY BUT OH NO NO NO

Don't get down on your knees
Cuz you can beg pretty please
But I won't turn around

I'm not giving you a second thought now
The better one of us has just about hit a wall
Please baby don't call
There's nothing left for you to take so just leave
And please, PLEASE, don't bore the better one of us

with apologies

Yeah I can see in your eyes
When you apologize
You don't mean a single thing you say
So do me a favor and just WALK AWAY
NO NO NO NO NO THE BETTER OF US IS SO DONE WITH
THESE GAMES OH OH NOOOOOO

Don't get down on your knees
Cuz you can beg pretty please
But I won't turn around
I'm not giving you a second thought now
The better one of us has just about hit a wall
Please baby don't call
There's nothing left for you to take so just leave
And please, PLEASE, don't bore the better one of us
with apologies

Yeah

Don't get down on your knees
Cuz you can beg pretty please
But I won't turn around
I'm not giving you a second thought now
The better one of us has just about hit a wall
Please baby don't call
There's nothing left for you to take so just leave
And please, PLEASE, don't bore the better one of us
with apologies
