UNBREATHABLE

Hey Honey you're looking too beautiful today
I couldn't help but notice the way
You sat there, ran your fingers through your hair
And I couldn't help but stare

I don't know if you know
I never, ever, ever want to let you go
Forever, I want you close to me
Cuz when you leave I can't breathe
No, no, don't you ever, ever leave

Cuz you're beautiful, wonderful, I love you
I'm lost in your deep blue sea
I don't know what to do
And when we talk I trip over me
Cuz when you came along you changed me
Made it difficult for me to breathe (oh, oh)
Now I'm finding you in my late night dreams
It's getting hot in this room
Slowly reminding me of you :)
Oh it's unbreathable, unbreathable air, like I can't catch
my breath no

Unbreathable trying hard to catch some air
And suddenly I doing whatever I want to
Cuz you brought me there
You made me fearless like you

And everyday when I think of you
Everything just kinda falls into place
Like this a sign of what I'm supposed to do
I just need to see your face

Cuz everything is just so

Beautiful, wonderful, I'm loving you
Falling under into your deep blue sea
Cuz when you touch me I'm everything I want to
When we talk I trip over me
And I'm thinking that you changed me
Cuz you're in every single dream

It's kinda hot in this room
Reminding me of you
This air is unbreathable, trying to catch my breath oh,
oh, oh

Your eyes are like a diamond waterfall
They catch me from my worst nightmares
I dream that everyday I'd be the one you'd call
If you'd ever need someone to care
Cuz you make this place unbreathable for me oh
Do I make unbreathable for you?
Do you feel this too?

Oh cuz you're beautiful, wonderful, I'm loving you
Falling under into your deep blue sea
Cuz when you touch me I'm everything I want to
When we talk I trip over me
And I'm thinking that you changed me
Cuz you're in every single dream
It's kinda hot in this room
Reminding me of you
This air is unbreathable, trying to catch my breath oh,
oh, oh
