its not so simple  
in fact its undiscribable  
the feelings that we have today  
moving away,made your lips astray  
how does our love grow stronger each and every day  
its your voice  
its got me tripping  
i can't stop missing,missing you  
i just wanna kiss you so bad  
the kiss that i never had  
yeah  
the kiss that i never had  
oh  
my heart stops  
when i look into your eyes and why  
do i give it the time by you  
what do i do  
finally were about to kiss  
hope i don't miss  
feeling all nervous inside  
feelings that i cannot hide  
no longer feelings getting stronger  
its your voice  
its got me tripping

i can't stop missing,missing you  
i just wanna kiss you so bad  
the kiss that i never had  
yeah  
the kiss that i never had  
oh yeah  
(all right!)  
ooo maturity held me tight  
from knowing whats wrong and knowing whats right  
i wanted to hold you  
with all of my might  
you are my sun and i am your planet  
i wish i didn't take you for granet  
times gravity is pulling me away  
more and more  
its your voice  
its got me tripping

i can't stop missing missing you  
i just wanna kiss you so bad  
the kiss that i never had  
yeah  
the kiss that i never had  
oh  
the kiss that i never had
