Lover girl

(Verse)

You look so beautiful tonight

That smile you wearing so out of sight

Am I dreaming could this be real?

I'm with the girl that makes me feel so good

I think I should tell you that I love you cause I know I

could forever take care of you

Girl I would do anything for you

(Chorus)

Without you

What could I do there's no loving in the world that could  
out beat you

Your my lover girl woah your my lover girl

With your kiss how could I miss no local boys ever felt

like this your my lover girl woah your my lover girl

(Verse)

It takes time for me to see how special a love could be

but you only took a minute to play my heart so easily

and win it I just wanna know how much how much I love

you so your touch your touch has made me fall so deep

in love with you

(Chorus)

(Verse)

It's only been a little while yeah since I first seen your

smile yeah with you I feel so strong feels like nothing

could go wrong because your here with me

Girl your looking fine and your one of a kind got that

special something that makes you shine your my lover

girl woah oh oh your my lover girl

Take another step everything's alright I'll hold you in the

day and out through the night your my lover girl woah

oh oh your my lover girl woah oh oh your my lover girl
