One more day, one last look
Before I leave it all behind
And play the role that's meant for us
That said we'd say goodbye

CuÃ©ntame, otra vez, si no es el mismo sol
De ayer el que se esconde hoy
Para tÃ©, para mÃ©, para nadie mÃ©is
Se ha inventado el mar

If I promise to believe will you believe
That there's nowhere that we'd rather be
Nowhere describes where we are
I've no choice, I love you
Leave, love you wave goodbye

And all I ever wanted was to stay (all I ever wanted was
to stay)
And nothing in this world's gonna change, change

Never wanna wake up from this night
Never (never) wanna leave this moment
Waiting for you only, only you
Never gonna forget every single thing you do
When loving you is my finest hour
Leaving you, the hardest day of my life
The hardest day of my life

DÃ©jame, que te dÃ©
Cada segundo envuelto en un atardecer de vida
Para ti, para mÃ©, para nadie mÃ©is (Oh life empty
inside)
Se ha inventado el mar

But I never will regret a single day
Y ninguno sabÃ©a muy bien quÃ© hacer
What I'm feeling (aquella noche, noche...)
I will always love you
Leave, love you wave goodbye (love you wave
goodbye)

(And all I ever wanted was to stay ...y este maldito
atardecer)
Nothing in this world's gonna change...

Never wanna wake up from this night
Never (never) wanna leave this moment
Waiting for you only, only you
Never gonna forget every single thing you do
When loving you is my finest hour
I never knew I'd ever feel this way
I feel for you...

Never wanna wake up (I feel for you, I feel for you)
from this night
Never (never, never) wanna leave this moment
Waiting for you only, only you
Never gonna forget (never gonna forget) every single
thing you do
When loving you is my finest hour
Leaving you, the hardest day of my life...
Never wanna wake up from this night
