That girl has gone and broken your heart  
Like pulling the wings off a fly  
Come on Eddie, don't fall apart  
Plenty more birds in the sky  
But your sky is black  
The ocean's rising and you can't hold it back

She just a girl, Eddie  
I know it feels like the end of the world  
But she just a girl, Eddie  
There are four billion other girls  
Who wanna make love to you

She's not an angel sent down from above  
She's just a hand that you hold  
She doesn't love you when push comes to shove  
That warm fuzzy feeling has gone cold  
Feels like you're dead inside  
You've got a broken heart and wounded pride

She just a girl, Eddie  
I know it feels like the end of the world  
But she just a girl, Eddie  
There are four billion other girls  
Who wanna make love to you  
And me

You're not the first, Eddie  
Way back in caveman times  
Sabre toothed cave ladies chewed up and spat out our  
hearts

She just a girl, Eddie  
She's gone already  
Just let her go, Eddie  
There are four billion other girls  
Who wanna make love to you
