How can I explain this feeling?
Something's coming over me
Could it be that all the birds
Are singing to me?

Wonderful to know this feeling
Wondering what it could be
Seems to me that all the world
Knows something's coming over me

Hard to conceive
But I do believe
It's what I've been dreaming of
Could it possibly

Be happening to me?
It's gotta be love

Funny, what a lovely feeling
This is turning out to be
I took one look and I have to agree
It's plain to see
That something's coming over me

Wonderful to know this feeling
Wondering what it could be
Darling, it's great
And make no mistake
My love, it's true
That same something's coming over you
