Just bitch as long as you want  
I'm just gonna crush something to pieces  
Is this really where I belong?

Persecute all blood that flock together  
As it will flow out, the glorification feast

Shut them up by force  
It's a perfectly dead passion  
It's an entirely dead passion  
Parasite children of hatred  
I hate you - Dead passion  
Buried in dirt  
Embryo burning  
Let's destroy  
My pleasure

Under the name KAMIKAZE

Shut them up by force  
It's a perfectly dead passion  
It's an entirely dead passion  
Parasite children of hatred  
I hate you - Dead passion  
Buried in dirt  
Embryo burning  
Let's destroy  
My pleasure

Slow Down  
Move on darkness

It's a perfectly dead passion  
It's an entirely dead passion  
Parasite children of hatred  
I hate you - Dead passion
