So I want you for me to die

Hide your bloodveined eyes Swallow your loneliness

The voice pressures in  
Your words that ask for me The joy of being needed  
I bite my nails just a little

Hide your crying wrists The spilling milk The

Persistent cat becomes silent  
You don't want it but can't take your eyes off of the  
spilled milk  
Is that love ? Mistake ?  
I look at you just a little

I picture the swaying vision Of the reality becoming real  
You test me persistently  
You get angry when I don't agree You lose yourself  
And I fall in love with you once again

Can't be touched Won't be touched

Blind sorrow

I know it's hard for you to wait for me, so don't cry, go  
ahead and sleep  
What do you want from me? If I say to you that you look  
beautiful, will you be able to sleep?

You stare at the flowers by the window, without even  
blinking  
You want what you can't have, You wish to be pregnant  
But the only thing you can't hear is this child's...  
It's so dark and dark and dreadful Lets calm down with  
an old tale  
I am good at pretending to cry So I spill the milk and  
smile and I yell her the truth about not being pregnant

Don't do an excessive thing.
