Only on the surface now I'm toying with you you do not
notice a thing
In minus (-180 degrees celcius) frozen love, in taciturn
you, with taciturn love, a taciturn discomfort,
In taciturn me, with taciturn love, a taciturn scar

You are the eighteenth one, you didn't notice me
supported by kindness,
This frozen made love, In quiet you, with quiet love, a
quiet pleasure,
In quiet I, with quiet love, quiet...

I cannot change, I cannot return, taciturn love, quietly,
quietly, we two are entangled,
My inner heart's reticence, my inner heart's quiet,
striking towards the heart,
My inner heart's reticence, my inner heart's quiet, even
if I try to toy with your heart

I cannot change, I cannot return, taciturn love, in quiet
I, with quiet love, quiet...
I cannot change, I cannot return, taciturn love,
Quietly, quietly, we two are entangled,

(I don't feel anything, Even when I look at your face,
You should just keep being deceived,
That's nothing compared to what I had in the past)
I cannot change, I cannot return, taciturn love,
In quiet me, with quiet love, quiet...

From sometime ago I had noticed you but,
To be only by your side is all I need,
I hold you close at the end,
I don't know if this will become the end
