I don't remember,
The time we spent together
It's just a blur
Just a distant memory
It's just another, drunken memory

Don't cry tonight
I'll be here by your side
I'll stay here, all through the night
Don't look away
Don't hesitate today
And I, I will follow through
Til everything is smooth
for you

Don't look away
Don't hesitate today
And I, I will follow through
Til everything is smooth
For you
I don't remember,
The sound of your voice tremble
Take one last sip
No one really has to know
Take one last drink

Don't look away
Don't hesitate today
And I, I will follow through
Til everything is smooth
For you

Don't look away,
Don't hesitate today
And I
I will follow through
Til everything is smooth
For you
