"The First Single"

I can't stand to think about a heart so big it hurts like
hell

Oh my god I gave my best but for three whole years to
end like this

Well do you want to fall apart? I can't stop if you cant
start

Do you want to fall apart? I could if you can try to fix
what I've undone

Cause I hate what I've become

[Chorus]

You know me, oh you think you do you just don't seem
to see

I've been waiting all this time to be, something I can't
define

So let's cause a scene, clap our hands and stomp our
feet or something,

yeah something I've just got to get myself over me

I could stand to do without, all the people I have left
behind

What's the point of going around when it's a straight
line baby, a straight, straight line

So let's make a list of who we need and it's not much if
anything

Let's make a list of who we need and we'll throw it away

'Cause we don't need anyone, no we don't need
anyone

[Chorus]

And I hate what I've become.

You know the night life is just not for me

'Cause all you really need are a few good friends

I don't want to go out and be on my own,

You know they started something I can't stand

You leave for the city,

Well count me out

'Cause all this time is wasted on everything I've done

[Chorus x2]

Yeah
Over me
Yeah
Over me
