### "Miss Myrtle"

I said you see, you see all around but you don't  
Wanna go down, you're afraid  
Afraid of the moves that you make  
'Cause they're so quick to judge

You go back, you said you have to go back, you go  
away  
You couldn't be late but it's down  
It's down from the hill, you won't have any thrill  
You won't fill it up with some kind of space

You have to go down, now you're gone  
Tomorrow is long overdue  
I've been thinking of you  
And lights go out, I know it's you, oh

I'm just like you easily confused  
And I'm lost by the youths, buried with truth  
Smile and decide, somethings we hide  
But I can't forget them all, I'm five foot ten inches tall

You know you had  
You had what you do but you can't  
Control what they use, it's a shame  
We all seem to be who to blame

But I won't ask it again  
You had me when but I won't  
Never a wonder I can  
Never a wonder I can, oh

I'm just like you easily confused  
And I'm lost by the youths, buried with truth  
Smile and decide, somethings you hide  
But I can't forget them all, can't forget it all
