### "Scared"

You know that something inside of you  
Still plays a part in what i do, always  
I'm here for you  
I think that if we were all we had  
That's more than most people ever have, anyway  
Oh anyway, you can stay here

I know you're still there because you're scared that  
you'll lose everybody  
I know you're still there because you're scared that  
you'll lose everything  
I know you're still there because you're scared

I'm here if you're scared to go through  
Anything just reach out in front of you, always  
Won't you stay near  
So close we played it as if we cared  
Don't stop now that we're almost there, anyway  
Oh i'm here for you

I know you're still there because you're scared that  
you'll lose everybody  
I know you're still there because you're scared that  
you'll lose everything  
I know you're still there because you're scared

I know you're still there because you're scared that  
you'll lose everybody  
I know you're still there because you're scared that  
you'll lose everything

I know you're still there because you're scared that  
you'll lose everybody  
I know you're still there because you're scared that  
you'll lose everything

I know you're still there because you're scared that  
you'll lose everybody  
I know you're still there because you're scared that  
you'll lose everything

I know you're still there because you're scared
