Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go, go, go,  
Go right ahead  
Down the streets in a ufo  
Find a bull and you grab the horns  
Go right ahead  
Spin your head up at the day you were born

Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go, go, go,  
Go right ahead

Here's a secret keep it tight  
It's California late at night  
Go right ahead  
We're gonna drink, fuck and fight all night  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go

You should turn around, you never know  
Soldiers come along  
I wanna show you  
Our god is a sinner, our king is a god  
The room's about to crumble as I go to the phone  
Go right ahead  
Go right ahead  
Go right ahead  
You gotta â€¦ when you go out to your head

Go right ahead

Go right ahead  
Go, go, go  
Go right ahead

Like a tiger taking out of the sewer  
Go right ahead  
Do anything that you wanna do  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go  
Go

You should turn around, you never know  
Soldiers come along  
I wanna show you  
Our god is a sinner, our king is a god  
The room's about to crumble as I go to the phone

Go right a  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead

Down the streets in a ufo  
Find a bull and you grab the horns  
Go right ahead  
Spin your head up at the day you were born

Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead  
Go right ahead
