Hear them saying that a lot is a lot
You think it's all that matters
You've done your math well
You checked the figures
You've done your math tell
Who is the bigger
Man can't explain it but you got a hunch
Well, that's always something
Climb up the ladder
Step up a notch
Climb up the ladder then
See what you got
But if you do it, do it good, Brutus
Real good!
Like a little man should!
Did your homework and you worked the mob
Because it's all you can do
Tried for a lot still you have a little
What happened mister you couldn't figure
Out of the rut you still can't get it right
Can't get a lot for a little?
You keep on trying and you end up in the middle
Had an enigma ended up with a riddle
But if you do it, do it good, Brutus
REAL GOOD
Like a little man SHOULD
Rewind and look at what you got
Had ambition but you lost the plot
Judas Brutus Quisling time has come to do
What's expected of you
