"Statecontrol"

I've been around the world I take credit for the things
I've done.

I've done a lot of things and I just turned 21.

They tied me up put red tape around my hands.

I got caught in the web cause I didn't stand a chance.

I can't control the state I'm in - Go back in line and
repeat it again.

I said "Please Mr. Doctor" won't you cure my disease.

I got a sore throat and I got scrubs on my knees.

No matter what I do I can't get it straight.

I tried to sort things out but I'm still stuck in the state.

I can't control the state I'm in - Go back in line and
repeat it again.

Can't control the state I'm in - Go back in line repeat
again.

I'm gonna lie, I'm gonna cheat.

I'm gonna follow their lead then skip a beat.

I'm gonna lie, I'm gonna cheat and if that don't do it I
don't know what will.

I'm gonna lie I'm gonna cheat.

I'm gonna follow their lead then skip a beat. I'm gonna
lie,

I'm gonna cheat.

I can't control the state I'm in - Go back in line and
repeat it again.
