I neva shoulda let you tell me
That you were never gonna leave, no never
That you were gonna be the only
The only one for me forever

You said you wanted me but, baby
I saw you on the side with another
I love you but you, you can't expect
Me to forget

I can't keep forgiving you
For all you do, for leavin' me
All the times I waited up for you

Almost every night
You never noticed me
I shoulda known much better

I shoulda never let you be my man, baby
I shoulda never let you hold my hand
Now I know that

I shoulda never givin' you a chance, baby
I shoulda never let you, I shoulda never let you
I shoulda never let you, you never gave a damn

Said you'd never let me be lonely
But I waited all alone
Where the hell were you?
Told me so many things

I thought that we
We were gonna be so spectacular
Never shoulda let you step to me
I should have known better than to be with you

It doesn't matter the least that you apologized
I can't keep fogivin' you for all you do
For leavin' me all the times, I waited up for you

Almost every night
You never noticed me

I shoulda known much better

I shoulda never let you be my man, baby
I shoulda never let you hold my hand
Now I know that

I shoulda never givin' you a chance, baby
I shoulda never let you, I shoulda never let you
I shoulda never let you, you never gave a damn

Did you ever think about me?
Everything you expected me to be
Everything you did to me
No, you never gave a damn

Always runnin' 'round with some nasty thing
Fake hair pair a tight ass jeans
Did you ever think of me?
No, you never gave a damn

Now what did you think I was gonna be okay
When your always playin' me?
Come on, get serious
No, you never gave a damn

Boy you didn't have to be this way with me
Stop tellin' me you're the one for me
You never, you never
You never gave a damn

I shoulda never let you be my man, baby
I shoulda never let you hold my hand
Now I know that

I shoulda never givin' you a chance, baby
I shoulda never let you, I shoulda never let you
(I shoulda never let you)
I shoulda never let you, you never gave a damn

How 'bout me, babe?
How 'bout me, babe?
Never gave a damn

How 'bout me, babe?
How 'bout me, babe?
Never gave a damn
