Well life is short  
We spend all our time  
Just fucking fighting my friend  
Well a soul can't be bought  
Not with a cheap rhyme  
And I know that when I die  
I'm gonna go down with the general  
Up with the general smuts

Well I've been stuck in a hole  
And it's dark down here  
Every time I've thought I've seen the light  
Well it just fades and disappears  
Just fades and disappears  
Just fades and disappears  
Just fades and disappears

I've seen a face in the shadows  
And I've said "how do you do?"  
And I've been living in this horror show  
Which just never ends  
I'm gonna go down with the general  
Back to the general smuts  
I'm going down with the general  
Up with the general smuts

Fades and disappears  
I've seen a face in the shadows  
And I've said "how do you do?"  
And I've been living in this horror show  
For much too long  
I'm going down with the general  
Back to the general  
Down with the general  
Up with the general smuts
