freckles and eyes of brown
i'll take a big patty of cow
beautiful pearly statue
i couldn't eat meat without you
you're my little indian princess
little indian princess
little indian princess

took her off the vegetation
took her by the arm
selling e coli burgers
couldn't do no harm

you're my little indian princess
little indian princess
little indian princess

took her off the vegetation
took her by the arm
selling e coli burgers
couldn't do no harm
i'd use any reason
i'd use any trick
just to spend my loose change
on a fist sized ice cream cone at dick's

little indian princess
little indian princess
little indian princess
little indian princess
