"Sunshine"

You're the one.. you're the sunshine [x2]
Every time I see you [x2]
Every time
You're the one.. you're the sunshine [x2]
Ooh.....
And I want to be near you
And I want to be where you are
You're a steak and I spear you
You sell beers and a sparkle star
Nestled between a worm and rock
Snuggle it down for sleep time
Long lazy afternoon spent shearing poodles in the park
You're the one.. you're the sunshine [x2]
Every time I see you [x2]
Every time
You're the one.. you're the sunshine [x2]
Ooh.....
And I want to be near you
And I let you to dance on my feet
If I squint I can hear you
Playing all day long in the street
I look for your racecar
Out on the highway
Then you go zooming by me
In your special zooming lane
You're the one.. you're the sunshine [x2]
Every time I see you [x2]
Every time
You're the one.. you're the sunshine [x2]
Ooh.....
You're the one
