Her life journey starts today
Her restless spirit leads the way
It's time to take that leap of faith
Chasin' dreams that just won't wait
There's no lookin' back on yesterday

She's a trailblazer
A true born believer
The heart of an angel
Right down to her soul
Nothin's gonna break her
She's a trailblazer

Her worst day won't be enough
To make her think of givin' up
She'll face the storm to find the sun
Fightin' for the life she loves
Her destiny is on the road she's on

She's a trailblazer
A true born believer
The heart of an angel
Right down to her soul
Nothin's gonna break her
She's a trailblazer

She's a trailblazer
A true born believer
The heart of an angel
Right down to her soul

She's a trailblazer
A true born believer
The heart of an angel
Right down to her soul
Nothin's gonna break her
She's a trailblazer
She's a trailblazer
