Trying to find my own dream all around  
Trying to keep me safe  
Say me that I am strong  
Saying: you don?t have to rest

But in my mind I know  
You are always by my side  
But in my mind I know  
You are always by my side

I must keep save this friendship

Whispering words hidden in my soul  
I let it fly beyond the clouds  
I?m right or I?m wrong?  
It?s something giving sense to my life?

But in my mind I know  
You are always by my side  
But in my mind I know  
You are always by my side

I must keep save this friendship
