[Verse 1]

Seeing the man many times before  
He could share a shadow off the door  
You better run, you better hide  
The man is alone and dead inside

[Chorus]

I'm not scared of the man in blue  
I don't care the way I look at you  
I'm not scared of the man in blue  
I don't care the way I look at you

[Verse 2]

Man is bad as a stormy night  
Man is bad as a lions cry  
Nowhere to run, nowhere to hide  
Get on the road, and get out of sight!

[Chorus]

[Verse 3]

I'm pulling through, I'm falling behind  
The man in blue will take your life  
Coming down like acid rain  
The man in blue is right behind

[Chorus]
