"The Night Calls"

Visit "[The Night Calls](#)" on MotoLyrics.com

I come alive in the absence of light
Needing your touch in the heat of the night
Passion is burning my heart up alive
Desire is calling-Let me inside

You can't hide-I won't be denied when the night calls
Open wide and let me inside when the night calls

I'll kiss you and touch you and do as I will
Once I'm excited I'll go for the kill
You know you want me so don't you deny
Lets make a bargain no money can buy

Don't you lie-You want me inside when the night calls
Spread 'em wide and let me ride when the night calls

The hunger inside-It can't be denied when the night
calls
Lust is your guide, can you feel the tide as the night
calls
