(Verse)

Let the fiends tell it, I'm a wanted man
Made it to a brick from a hundred grand
I'm trying not to front my man
He a shooter, not a hustler, but he don't understand
Got a nice thing going now,
I'ma do all the talking, just hold me down
Spoiled like I was the only child
Flooded the whole watch and made the Rollie loud
It's over, just met with Mexicans
I don't do Rovers, since they Americans
They questioning, homicide but no whether this
Suit and tie detectives, in tinted rentals you catch them
in
Ask Tony, keep banging homie
And stay away from them niggas that ain't your homie
I said damn, that's some real shit,
Cause half these niggas ain't even real shit

(Hook)

Move a key, move a pound
Move the leak, move the town
Move the piece, if it's found, you going down nigga
Get dough, get a block, get flow, get it hot
Get low, if you not, don't come around nigga
We got it forever, we popping, you never
Send shots to whoever, bullets hopping your sweater
Turning dreams to nightmares, we all cheer, yeah
Got 14 bricks right there

(Verse)

When it's drama, we don't settle it
Hard hat, army jacket, full metal it
Man down when that metal spit
I'm heaven sent, but I'm down where the devils went
Once the blood spilled, you mop it up
Body count, body bags, after you chop em up
He came home and I got him up
You coping what? Who sent you, ain't no popping up
Heat cocker, G shocker,
CL smooth in this polo, a Pete rocker

Play to send a 9 on me like I backa
Moving teensters to the day I meet Hoffa
20 k forward let's go 10 10
It's a win win, just spend rent up in chin chins
High off live I've been bent
White ice, dirt bikes, bit bit

(Hook)

Move a key, move a pound
Move the leak, move the town
Move the piece, if it's found, you going down nigga
Get dough, get a block, get flow, get it hot
Get low, if you not, don't come around nigga
We got it forever, we popping, you never
Send shots to whoever, bullets hopping your sweater
Turning dreams to nightmares, we all cheer, yeah
Got 14 bricks right there

(Verse)

Yo, killer be kills the game,
How you feel the same, just move pills, the main
I don't feel you maine, fuck chill I still can't hold it still
and aim
Got the clothing deal from Dane
New money we seeing
Soon as he finish we reeing
Hard blocks like cruise and Benz
Find in Fort Lee with Korean, a Eruopean

(Hook)

Move a key, move a pound
Move the leak, move the town
Move the piece, if it's found, you going down nigga
Get dough, get a block, get flow, get it hot
Get low, if you not, don't come around nigga
