"Let It Burn"

Visit "[Let It Burn](#)" on MotoLyrics.com

Yo, if we ain't got it, we go take it
Moving d on the block, knocking we gonna make it
Leather snake skins, Jordan 3's with the grey tips
Break bricks seen more 12-12 than gray 6
All night affair, I might appear light cashmere golf shirt
looking like Tiger here
Buy the bar first, every bottle besides the beer
Hard verse, ex em off every line like sign it here
Stress come with the dough,
Don't know if I wanna do â€¦ loads
La Cienega party in the Beverly center
Table full of Ciroc, Moet, couple of Rose
Buckets of just ice, I dress nice
Want a trip to heaven?
Shit you could be on the next flight
I'm from that era bust check swipes
Everything less price compress white,
About to get ex height

When will that motherfucker learn?
We don't need no water, let that motherfucker burn
Yo let that motherfucker burn, yo let that motherfucker
burn
We styling, we wiling, get locked, we high profiling
We slanging, we banging, you see guns that we aiming
We rocking, we knocking, them doors down like what's
popping
You niggas know we popping,
Sliiiiiiiime

The flow is hotter than Ecuador
Prada to Vesha Por
drip my connect was far
Playing soccer with Escobar
Play chess with Bumpy set with rest them all
Bugging, my mind be shuffling like a deck of cards
Fifth waists with big H's gator gold buckle, no trouble I
spit faces
Where most hustle their bubble Lennox to 8th its BMW's
racing
Sliiiiiiiime

Think I don't know, see you when I see that nine gonna
blow
Better believe when I leave watch you die slow mo
Money chain people you ain't lying tho bro
House in around when im flying both coasts
shots in the sky when I fire both dos
got a wife on the side let me slide both do's
phantom or the ghost suicide both doors cop both hoes
not no o's
What's the time difference we can rock both shows
You can push the rock
Coke on the corner for those snot nose
Good for the day, Got a few left I'm good with the yay
fast lane break I be good with the lay

When will that motherfucker learn?
We don't need no water, let that motherfucker burn
Yo let that motherfucker burn, yo let that motherfucker
burn
We styling, we wiling, get locked, we high profiling
We slanging, we banging, you see guns that we aiming
We rocking, we knocking, them doors down like what's
popping
You niggas know we popping,

Rugby down, patch up the whole jet
Low cat trendsetter but y'all know that
Day to day, wear mink hats and gold caps
Like when Cam' did pink fab and throw backs
Jay in all black, clothes by Sean Combs
Stage beyond back, shows in Hong Kong
Waist be on stack, O's are long gone
Most of my late days been in traps
Hoes, there's no home

When will that motherfucker learn?
We don't need no water, let that motherfucker burn
Yo let that motherfucker burn, yo let that motherfucker
burn
We styling, we wiling, get locked, we high profiling
We slanging, we banging, you see guns that we aiming
We rocking, we knocking, them doors down like what's
popping
You niggas know we popping
