I heard you were  
Just passing through  
I never meant  
To get attached to you  
The day we met  
I still hold on to

It was out of the blue  
You play a show  
And we locked eyes  
By the stereo  
I fell into your eyes, so blue

(Chorus)  
No matter how it goes, goes, goes  
I just want you to know, know, know  
I'm reminiscing  
Thinking 'bout us kissing  
Now could you take, take, take  
The million miles away, way, way  
It's you I'm missing  
And it's a long- distance

We keep in touch, though outta' reach, I almost wish,  
we didn't meet, it's  
Not enough, to keep a romance sweet

I was outta' my mind, to let you in, I should of thought,  
of you as just a  
Friend, but now you've got me  
Learning till the end

No matter how it goes, goes, goes, I just want you to  
know, know, know, I'm  
Reminiscing, thinkin' about us kissin', now could you  
take, take, take, a  
Million miles away, way, way, it's you I'm missing, and  
there's a  
Long, long, long...

But it makes a good story anyway, all the memories

created in one day, I  
Geuss they've found a place to stay, so were keepin' up  
with tis facade,  
Missing messages and signs that were not okay  
Just pretend you feel the same

That not matter how it goes! goes! goes!  
I just want want you to know! know! know!  
I'm reminiscing! thinkin' bout' us kissin! now could tou  
take! take! take!,  
A million miles away, way, way! ?  
It's you I'm missing!  
And there's a long! long1 long!... distance
