This mc keep the hammer you can't touch you  
213 range rover is what the trop will do  
A cruise through the h and the 6 like hudpiece  
I'm off the chain like 86, that's hard piece  
If you ain't from harlem, I might have lost ya  
If you ain't payin attention, tonight will cost you  
Burberry plat in the trenches, white diamond cross you  
Shawty is bad but we trippin, and I don't force her  
I'm an enforcer, word to maio  
Og maio and shootin you, you shoot him and get the  
yayo  
Aimed at your forehead like a dribble move from ayo  
Get his face smashed when I blast through this potato  
What I take whole roof for a 8 oh  
I came these hoes say no  
I'm driving this shit they ain't know

[Hook]

Try to sleep on me, die in your sleep homie  
Can't creep on me, 9's I keep on me  
Time is tickin, not mine, you need rollie  
Diamonds in it, bright shine, deep sea on me  
On today, turn a few waxes, way growner  
I got a team with more stripes than the yanks owner

You tryna find love in hip hop, go page mona  
On her, straight stone her, smacked off king cobra  
Strapped off, 2 cats with me, but they soldiers  
Keep dope and coffe but hate folders  
I got some shit that's knocking the tanks over  
Crib on white, sway walls with mink sofas  
The hate got you, play cards with mobsters  
Cake proper, new name frank sinatra

[Hook]

Still sleepin on me?  
Then sleep homie, don't wake up  
Some food for thought,  
Eat homie  
Amg 63 is the e homie  
Place the dony beat, then I can eat homie  
Weak homie, ain't no weed homie  
Been a week homie, frosted week homie  
Money on my mind, on the grind with the g's homie  
Whole town on lock only I got the key homie
