### "Dust To Gold"

I've got no patience for this  
Your philosophies twist  
And mess my mind up  
I've know truth and its face  
Its the cruelest embrace  
And you think you taste it

This is what you want  
This is what you need  
This is what you want  
Beg for free

You see  
I've walked on that floor  
And i've walked it before  
You could even crawl it  
I've been through the strangest of mazes  
Somewhat self induced hazes  
I got through  
And now back to you

This is what you want  
This is what you need  
This is what you want  
Beg for free

Because you're safe now  
While hearts are cold  
You just wait until dust turns to gold

I've got no patience for you  
Because you've lied and misconstured  
You've led us on
