

The Tea Party

"Time"

Beautiful youth
Spirit away
Yesterday's truth left yesterday
When hellfire froze right over
Time enough
Climbing the bluff
Never again
Not even when hellfire freezes over
Seeing us off
Over the cliff
Watching us fall in love
Loving it all in loving love
Time for the rest of time
How can we forget

Time for the rest of the time
How we lovers met
Time for the rest of time
Yeah just don't waste it
Time for the rest of time
In the whole sunset
Mighty will fall
Holy must rise
Saying it all
Hello goodbyes
As hellfire freezes over
Seeing us off
Over the cliff
Watching us fall in love
Loving it all in loving love
