Dear cath,  
How much I've longed to see you,  
And when I see your face,  
Nothing will ever make my smile as big as it will be that  
moment,  
We may be 1000's miles away,  
They can put us on different planets and I will not love  
you less.

Two keys,  
Two hearts,  
One love,  
Girl you mean everything to me,

Dear cath,  
If I promised you the world,  
Would you just give me one night?  
If I promised never to leave you,  
Would you believe I meant forever?  
Because I do!

Two keys,  
Two hearts,  
One love,  
Girl you mean everything to me.
