

## The Used

### "Kiss Me Kill Me"

Visit "[Kiss Me Kill Me](#)" on MotoLyrics.com

Tell me tell me something i would know  
Listen to the cure on the radio  
Think about the day you made me feel again

Love me in a way you can't describe  
Kill me in a way that i'll stay alive  
Light me up so i can come back in

Don't wanna kiss like this  
With everyday we miss  
Don't wanna kiss like this  
With everyday we miss

Meet me in the dark after the show  
I'll take you to a place they'll never know  
We'll think about the day your happiness was taken  
away  
Gimme gimme magic cast a spell  
These past few weeks i'm living hell  
Let's give it a rest and come back when it's time

Don't wanna kiss like this  
With everyday we miss  
Don't wanna kiss like this  
With everyday we miss

(bridge)  
Send me another letter  
To be gathering dust with the rest  
Emotions aside did we ever live up to the test  
Why do we always end up coming back for more

Don't wanna kiss like this  
With everyday we miss  
Don't wanna kiss like this  
With everyday we miss
