Can't watch with mechanical eyes, we say ahh-oh.
You light a match but can't see in the dark, you say
ohh-no.
Don't even laugh as you fight to survive, say ahh-oh.
Run out of time. Save your life, oh, whoa, oh.

Backfire.
Shut your mouth.
You got nothing to say.
Backfire.
You could break your back,
Get fucked up, feel the heat.
Can't stop me now.
I'm throwing daggers from my mouth.
I don't get tired.
You can't tie me up, or slow me down.
You can't stop me now.
I am a machine.

I step quick while you're falling behind, I say ahh-oh.
I watched you dig, bury yourself alone, I say ohh-no.
I brought a gun, all you've got is a knife, I say ahh-oh.
One at a time, save your life. Ahh-ohh-no.

Backfire.
Shut your mouth.
You got nothing to say.
Backfire.
You could break your back,
Get fucked up, feel the heat.
Can't stop me now.
I'm throwing daggers from my mouth.
I don't get tired.
You can't tie me up, or slow me down.
You can't stop me now.
I am a machine.

I am a machine
I am a machine
I am a machine
I am a machine

I am a machine
I am a machine
I am a machine
I am a machine

You know I need so much more.
More than I gave before.
When metal replaces bone.
The future is now.
It is what you own.
Not enough to save yourself.
You better think of something else.
It's not exactly what I've become.
But we know it's nothing that you have done.
Ah, ah

Backfire.
Shut your mouth.
You got nothing to say.
Backfire.
You could break your back,
Get fucked up, feel the heat.
Can't stop me now.
I'm throwing daggers from my mouth.
I don't get tired.
You can't tie me up, or slow me down.
You can't stop me now.
I am a machine.
