When the shirt came off, it was all in time
When the m-m-minute turned into a mile
And then I broke that grin, and I cut it out
And you got all turned on by the taste of your sin

When I mention blue, all you thought was color
When you mention drugs, all I thought was sober
When your pants came off and I turned you over
When you mention blue

Kill, smile
Cut it out for me this time
Smile
Haven't seen him smile in a while

Keep the mask aligned, get it up in time
There's a space between valleys and try catch a vibe
Make a circle square, a rectangle curve
Use a smile as a noun and I think like a verb

Run quick switch sides
Spill the filled up canister
(And the room is shaking)
Now you're changing places
(And I switched my place)
And my breathing races when you mention blue

Kill, smile
Cut it out for me this time
Smile
Haven't seen him smile in a while

(This is life)
Kill, smile
(This is life)
(This is life)
(This is life)
Cut it out for me this time
(This is life)
Smile
(This is life)
(Haven't seen him smile in awhile)

Kill, smile
Cut out for me, cut it, cut it out
Smile
Kill, cut it out for me, cut it, cut it out
Out, out, out, out, out, out

(We cut it out)
Kill, smile
Cut it out for me this time
Smile
(Haven't seen him smile in awhile)

(This is life)
Kill, smile
(This is life)
(This is life)
(This is life)
Cut it out for me this time
(This is life)
Smile
(This is life)
(Haven't seen him smile in awhile)

Get down
Get down
Get down and stay awake
Ahh, ha, ha
Smile
