I see that face, that look in your eyes
It's so hard to hide that look in your eyes
You've been kicked down so many times
Yeah you've tasted the dirt
And you know what it's like

Fill up your cup
Fill it up to the top
Take a sip, spit it out
And fill it back up
Cause you said half full
Is never enough
All alone and you've had enough

Don't let me be, don't let me be
All by myself, that's not how I felt
Do I deserve to be one of the lonely?
Hold my hand, stand by me
All by myself that's not how I felt
No one deserves to be one of the lonely
Hold my hand, stand by me.

I've got that face, that look in my eye
It's impossible to hide
That look in my eyes
I've been kicked down so many times
Yeah I've tasted the dirt,
I know what it's like

Fill up my cup
Fill it up to the top
Take a sip, spit it out
And fill it back up
Cause I said half full
Is never though

All alone and I've have enough

Don't let me be, don't let me be
All by myself, that's not how I felt
Do I deserve to be one of the lonely?
Hold my hand, stand by me
All by myself that's not how I felt
No one deserves to be one of the lonely
Hold my hand, stand by me.

How many times will we forgive
What we just can't forget?
Time after time and still
We let it happen again
How many times do we
Deserve exactly what we get?
I never wanted, no I never want to be

All by myself
That's not how I felt
Do I deserve to be one of the lonely?
Hold my hand, stand by me
All by myself
That's not how I felt
No one deserves to be one of the lonely
Hold me hand, stand by me.
