In The Cold, Cold Night

I saw you standing in the corner
On the edge of a burning light
I saw you standing in the corner
Come to me again in the cold cold night

In the cold cold night

You make me feel a little older
Like a full grown woman might.
But when you're gone i grow colder

Come to me again in the cold cold night
In the cold cold night

I hear you walking by my front door
I hear the creaking of the kitchen floor
I don't care what other people say
I'm gonna love you, anyway

Come to me again in the cold cold night
In the cold cold night

I can't stand it any longer
I need the fuel to make my fire bight
So don't fight it any longer

Come to me again in the cold cold night
In the cold cold night

And I know that you feel it too
When my skin turns into glue
You will know that it's warm inside
And you'll come run to me

In the cold cold night
In the cold cold night
In the cold cold night
In the cold cold night
