I blew it
And if I knew what to do, then I'd do it
But the point that I have, I'll get to it
That forever for her is over for me
Forever, just a word that she said that means never
To be with another together
And with the weight of a feather it tore into me
Then I knew it
And all the work that it took to get through it
On the wings of a feather that flew it
Fell under my shoe it cut up into me

Well, everybody's reaction is changing you
But their love is only a fraction of what I can give to you
So let's do it, just get on a plane and just do it
Like the birds and the bees and get to it
Just get out of town and forever be free
Forever, a word that we could say together
It could change if you want for the better
Just tug on my shirt and lay down next to me

I blew it
And if I knew what to do, then I'd do it
But the point that I have, I'll get to it
That forever for her is over for me
Forever, just a word that she said that means never
To be with another together
And with the weight of a feather it tore into me

Well, everybody's reaction is changing you
But their love is only a fraction of what I can give to you
Well, let's do it, let's get on a plane and just do it
Like the birds and the bees and get to it
Just get out of town and forever be free
Forever, a word that we could say together
It could change if you want for the better
Just tug on my shirt and lay down next to me
