I saw you standing in the corner
On the edge of a burning light
I saw you standing in the corner
Come to me again in the cold cold night
You make me feel alittle older
Like a full grown women might
But when you start to grow colder
Come to me again in the cold cold night
I hear you walking around my front door
I hear the creaking of the kitchen floor
I dont care what other peaple say
I'm gonna love you anyway
Come to me again in the cold cold night

I cant stand it any longer
I need the fuel to make my fire bright
So dont fight it any longer
come to me again in the cold cold night
And I know that you feel it too
When my skin turns into glue
You will know that its warm inside
And you'll come run to me
In the cold cold night
