There's a storm
It's comin' around
And the snow is fallin'
It's comin from the clouds

Don't you walk away
With my love
Don't you walk away now
From my home

I'm asking you to hear my please
I know the shelter of your arms
Walked into spin my vains
Need the shelter of your arms

There's a sadness
It's feeling my heart
And the sun is
Tearin' me apart

Don't you walk away
With my love
Don't you walk away now
I'm on my own

I'm asking you to hear my please
I need the shelter of your arms
Walked into spin your vains
I need the shelter of your arms

Shelter of your arms
Shelter of your arms
Shelter of your arms
I need the shelter of your arms

Shelter of your arms
Shelter of your arms
Shelter of your arms
I need the shelter of your arms
