"Something She Said"

Just stay in my arms

[Verse 1]

Last night I leveled with the angels
They were everywhere
And there was nothing I could do
It wasn't their call
We entered the house greeted
By a stranger who would soon replace ours

[Pre-chorus]

And right away I knew I was entering
Into a place of uncertainty and disdain

[Chorus]

Why is father
On the phone did he notice
Her withering hand or is it something she said
Up this flight of stairs how we dare
I enter this room and this house

[Verse 2]

I descend into a room down the hall
My hands are shaking I must reason with the angels
They will understand
They will see the tears
Tell everyone I can make them let her go

[Pre-chorus]

[Chorus]

[Bridge]

Crying out
She's in Heaven now

And this house couldn't work as a cage for an angel
Now it's me I've got to let go
