Take my hand my dear  
And we will fly across the mountain tops  
Swing up to the heavens  
And listen to the angel choirs  
Sway beneath the sea  
Let the currents move your body  
To the rhythm of the music in my heart

You're away and now I know what it means to be alone  
I see you in a picture and my heart is turned to stone  
Until you return to bring the sunrise back

I stare at you across the floor, you look away but I want  
more  
I try to catch your eye in the crowd  
If we could walk but once my love beneath the moon  
and stars above

My heart will sing and scream to you:  
Pa pa pa di da...

You're away and now I know what it means to be alone  
I see you in a picture and my heart is turned to stone  
Until you return to bring the sunrise back

As I'm paging through my chord book  
I can't find the chord to say or express what I feel  
When I'm around you  
During night or day  
So come on closer and feel this song with me tonight
