Everyday you're on my mind
But I can't get away from you You gave me your love
And all of your time
But I can't get away from you
But I can't get away ...

Music, Music, Lose it
I can't leave you behind
Music, Music, Lose it
There aint no way I can leave you behind

Everyday you're by my side
Cuz I can't get away from you
When I wake up
Till I lay down
I just can't get away

Chorus

You're always there next to me
In all the things that I see
There ain't no way that I
Can't be close to you
You're in my hopes and my dreams

You're like my everything
I don't if I'm
too strung out for you
I don't know u don't know

Everytime I'm thinking this will pass
Everything that I do is for you
But I told u that I need some space before
I don't know...

I told u everything
That I had on my mind
I don't know why
I can't get through to you
I don't know why you with me
you could have any guy
I just wanna be oh so close to you

I told u everything
That I had on my mind
I don't know why
I can't get through to you
I don't know why you with me
you could have any guy
I just wanna be oh so close to you
