(Verse)

Another week where I wanna try stealing  
Air with some of the kindness, I'm suicide  
You had to smile at the break boards baby  
And you, you used to build me a place to hide

(Verse)

Although through the meetings  
I will meet you were I go  
And maybe I will realize that pressure comes, pressure  
is low

(Bridge)

Too much to handle  
That's just what I need  
We've been out all night to prove  
We are free

(Chorus)

And we will make it to the weekend  
And we will learn how to breathe  
When it's too much handle  
Being free

(Verse)

I'm up again in the middle of the night  
That time when it's too easy to judge myself on  
everything  
I read about the secret life of plants  
Still I'd be of small enough to get back to sleep

(Verse)

All is getting cornered and it could get where I'm  
looking at you  
Sunday's on our hearts and so many things what I  
didn't go through

(Bridge)

Too much to handle  
That's just what I need  
When it's too much handle

We are free

(Chorus)

And we will make it to the weekend  
And we will learn how to breathe  
When it's too much handle  
Being free

(Bridge)

Too much to handle  
That's just what I need  
We've been out all night to prove  
We are free

(Chorus)

And we will make it to the weekend  
And we will learn how to breathe  
When it's too much handle  
Being free

(Chorus)

And we will make it to the weekend  
And we will learn how to breathe  
When it's too much handle  
Too much handle  
Too much handle  
Being free
